TERRAZAS IS SUPERIOR NOW

Mexican Troops and Insurrectos Expected to Fight Near San Andres at Once.

NEW COMMANDER OF THE REGULARS

(By C. D. Hagerity, Associated Press War Correspondent.)

Chihuahua, Mexico, Dec. 5.—Congress met Monday and elected Alberto Terrazas acting governor of this state, succeeding Jose Maria Sanchez. The election is really an appointment which serves to consolidate authority, as Gen. Luis Terrazas, father of the new governor, owns a third of the land in the state and has always been the power behind the throne.

The new governor is the brother of Mrs. Enrique Creel, wife of the Mexican secretary of foreign affairs and former governor of Chihuahua, and Gen. Terrazas, his father, held the position of governor before Mr. Creel was elected to the office.

Gen. Juan A. Hernandez has assumed control of this military zone, succeeding Gen. Manuel M. Plata. Hernandez is known as an inexorable fighter who has no sympathy with the common people.

Government troops which left here Saturday, camped at Santa Isabel Monday. Six hundred of the enemy were reported 15 miles away at San Andres and the government troops split into two detachments to reconnoiter in force.

TROOPS MARCHING TO CHIHUAHUA FROM SONORA
Douglas, Ariz., Dec. 5.—According to reports received here, troops which passed south of Douglas several days ago have succeeded in making their way through the mountains and to Chihuahua. Other troops, which passed through Batopilas, are due at Chihuahua today.

The towns of San Andres and Santa Isabel are all present without local authorities but conditions in both are reported tranquil. The revolutionists are reported to have retreated from those towns and workmen have been permitted to repair the telephone and telegraph lines in this section.

NO FURTHER WORK FOR TROOPS ON TEXAS SIDE
Del Rio, Texas, Dec. 5.—Capt. Thayer, commanding troop K, Third cavalry, sent here from Fort Sam Houston to patrol the border and prevent any overt acts in connection with the trouble in Mexico, has received orders which will transfer the troop to Fort Clark on December 10. The troop stationed at Eagle Pass will also move to Fort Clark.

Aside from the mere formality of patrolling the border there has been no work for the soldiers since they were brought here. Absolutely nothing has transpired to give credence to any activity along the river in this section. Americans cross and recross the river and go into the interior the same as formerly and feel perfectly secure.

A local hunting party spent several weeks in the mountains southwest of here during the entire trouble in Coahuila and they were not only unharmed but hardly knew that any trouble was in the air.

BRING REPORT OF TROUBLE IN AND AROUND ZACATECAS
Something did occur in Zacatecas, in spite of contradictions, according to travelers from that city who have arrived in El Paso. While the affair of two weeks ago was not a great riot, as reported, yet there was something doing. Two Americans and five Mexicans, all employed in the city, were arrested from the police and were caught by pedestrians in the street, while a Mexican miner required five policemen to drag him to jail. The Americans were released without fine on the morning following the riot. It is declared that anti-American sentiment ran very high at that time.

NEW COMMANDER FOR THE TROOPS IN CHIHUAHUA STATE
Gen. Manuel M. Plata, in charge of the second military zone, with headquarters in the city of Chihuahua, has been removed from that position. It is declared that failure of his command to cope with the condition in the west is unquestionably the cause of his removal. In the place of Gen. Plata comes Gen. Juan A. Hernandez, of San Luis Potosi, while the Chihuahua commandant will exchange with the new appointee. The exchange of locations will occur today, it is said.

EXPLODING ENGINE THROWS MAN'S BODY 100 YARDS.
Odessa, Texas, Dec. 5.—Engine 224 on the T. & P. blew up four miles east of Odessa at 10 a. m. today, killing engineer Oliver and his fireman, and badly injuring one brakeman. The engineer's body was found 100 yards from the track.

BLIZZARD IS SLEEPING COUNTRY

Business Is Forced to Suspend and Ocean Traffic Is Tied Up in the East.

NEW YORK HAS REAL SNOWSTORM

New York, N. Y., Dec. 5.—A blizzard swept along the Atlantic seaboard and over the lower lake region today. It was 12 below at Canton, N. Y., which was the lowest temperature recorded.

Rain, snow or sleet fell over the entire country from Virginia northeast and through the New England states. Four ocean liners which were in port this morning were forced to anchor in the lower bay because of the blinding snow.

Shipping in general is tied up. This is New York's first real snowstorm. There was a blinding fall yesterday afternoon and more than 20 persons were taken to hospitals after falls on sidewalks.

Business Suspended.
Lexington, Ky., Dec. 5.—One of the heaviest snows in many years fell in this section of Kentucky last night and early today. The fall in the mountains was two feet, while it was 19 inches in the lowlands. Business in the mountains is entirely suspended.

Ten Years' Record Broken.
Gallopis, Ohio, Dec. 5.—Twelve inches of snow fell in this section last night, the heaviest in 10 years.

Cold in Texas.
Fort Worth, Texas, Dec. 5.—The coldest weather of the winter is prevailing throughout north Texas, and ice is reported in many sections half an inch thick. The temperature dropped below 30 degrees here over night. A slight snowfall is reported from upper panhandle points.

PRISONERS SET CITY HALL AFIRE

Fort Worth, Texas, Dec. 5.—An effort to burn down the city hall and police station was foiled by the police early this morning, when they discovered a cell in which James Smith was confined was aflame and part of the ceiling was burned.

The cell is directly under the city waterworks office.

Discovering the flames, five policemen on duty hurriedly hurried the 20 prisoners into the chief's office and fought the fire.

Smith, who started the blaze, escaped, but the others remained.

TWO BOYS SKINNED AT JUAREZ FIESTA

Two American youths, visitors in El Paso, lost \$120, which they say constituted their total cash, at the games in Juarez. They were "looking out" Tuesday morning, they explain, when a strange friend offered to stake them to a "double up" variety of almost sure thing game. They lost all within a few minutes.

There was a panic Monday night in the gambling pavilion. Some say that somebody cried, "Viva Madero," but police declare that it only was caused by a policeman trying to arrest a drunken woman. Anyway, many ran out of the big shed, all was excitement for a time, and a number had their toes trampled on.

TODD TO WATER CO.; NUNN SUCCEEDS HIM

Capt. Herbert Nunn, formerly county road engineer, has been named by Mayor C. E. Kelly to take charge of all departments of the city engineer's office, succeeding F. H. Todd, who becomes engineer for the water plant and consulting engineer for the city. Mr. Nunn is now assisting in superintending the installation of the sewage raising pump at the mouth of the alley on the north side of San Antonio street, between El Paso and Oregon streets.

BRIDE OF 15 DIES 2 DAYS AFTER WEDDING.

Vaughn, N. M., Dec. 5.—Lucia Ruibal, aged 15, who was married by Rev. Father Halterman to Vicente Gallardo, died five days later. She was ill with typhoid fever when she was married, but would not postpone the wedding, and the excitement and the dance that night helped to hasten her death. She was much beloved by the entire community.

BOY DROWNS IN BAT OF DEADLY POISON

New York, N. Y., Dec. 5.—While he was frolicking with some other boys who worked with him in a factory, Louis Scheerer fell into a vat filled with a solution of cyanide of potassium. He opened his mouth to scream, swallowed some of the solution and died immediately.

TO STRENGTHEN CONFIDENCE OF CAPITAL

Dead Insurrectos About To Be Buried By Rurales In Cemetery At Parral

Body of American Killed in Mexican Trouble Desecrated at the Grave.

CONGRESS HEARS MESSAGE READ

But Will Be Unable to Carry Out Many of Its Ideas.

Washington, D. C., Dec. 5.—Congress gave respectful attention to president Taft's message today but there were comparatively few members who were willing to concede the probability of favorable action at the present session on many of the recommendations, this in view of the fact that the session will close March 4.

New Senators Sworn In.
In the senate today the oath of office was administered to Claude A. Swanson, successor to John W. Daniel as senator from Virginia; Joseph M. Terrell, successor to senator Clay, of Georgia; and Lafayette Young, successor to senator Dooliver, of Iowa.

Caleb Powers Sees Taft.
One of the most interesting callers on the president today was representative-elect Caleb Powers, of Kentucky.

Mr. Powers was introduced by senator Bradley, who declared that the new congressman had been vindicated by the heavy vote ever given a congressman in his district.

President Holds Conference.
The president will devote the most of the remainder of this week to conferences with senators, representatives and men of prominence in various walks of life regarding judicial appointments which the president expects to send to the senate next week.

Clark Gives Cannon Apple.
Representative speaker of the house, who presented president Taft with two apples, red apples a few days ago, and then asked for the appointment of a Missouri as associate justice of the supreme court of the United States, today gave two apples of the same kind to speaker Cannon. He said he had no favor to ask of the present speaker, but merely desired to introduce the fruit of Pike county, Missouri.

How to Make Christmas Pudding.
Here is a new Christmas pudding from the recipe of M. Auguste Escoffier, the king of chefs, who has just arrived in New York. He calls it "Christmas pudding de Rois Mages," and says that in serving champagne or rum, whichever the diners prefer, should be poured over it and lighted while it is being brought to the table.

1 lb. of best white suet, finely minced; 1 lb. of crumbled bread; 1-2 lb. of flour; 1-2 lb. of apples, peeled and sliced; 1-2 lb. of sultanas; 2 oz. of crystallized orange peel and 2 oz. of citron peel, cut in small cubes; 2 oz. of ginger; 4 oz. of Demerara sugar; and 1-2 lb. of Demerara sugar; the juice from half an orange and half a lemon, 1-2 oz. of mixed spices, 3 eggs, 1-4 pint of rum or brandy, 1-3 pint of stout.

Mix all of these ingredients in the usual way, pour the preparation into white earthenware pudding basins, with projecting rims which should be in the shape of a log of wood; press it into them, and then wrap them in a buttered and flour-dusted muslin cloth, which tie into a knot on top.

Cook in boiling water or in steam for four hours.

FRENCH MASON'S DROP USAGE OF THE BIBLE.
Waco, Texas, Dec. 5.—In his annual address to the 75th annual session of the Texas grand lodge, striking reference was made by grand master T. C. Yantis, of Brownwood, to the attitude of the Masons on the Bible. He said while in Europe recently he could not meet with the Masonic lodges of Paris, as they had removed the Bible from the altar and substituted the constitution of France.

Next to last man on right is body of Edward Lawton, American, whose body was taken from coffin by Mexican officials and photographed with dead insurrectos at cemetery, after American friends had sealed the body in a casket for burial. Lawton's head is directly at the feet of the fifth rural from the right.

He said while in Europe recently he could not meet with the Masonic lodges of Paris, as they had removed the Bible from the altar and substituted the constitution of France.

FIRST HOUSE AT DANISITE FINISHED

Work at the Dam Is Progressing Well, Says Engineer Reed.

WILL CONTINUE TO NEED THE BRIDGES

"Work is progressing splendidly at the Elephant Butte dam; the roof was placed on the first house there Monday," says engineer Reed.

"There is some lumber on the ground for other houses, but most of it is that which is to be used last and consequently construction of other residences must of necessity be retarded to some extent."

The government is now working about 80 men and 15 are employed by the bridge contractor while the grading contractors have 240 men and 25 teams at work. Grading is finished except in three cuts in Ash canyon.

"The railroad company has rails laid for the y and siding, while rails for the balance of construction are on the ground."

Will Always Need Bridges.
"El Paso will always need bridges over the Rio Grande, for that stream will never go dry. Many have thought that after the construction of the Elephant Butte dam, all water would flow down through the community ditches on either side of the river, being diverted by the dam at Selden. However, this is not the fact. The largest flood that ever came over the Selden dam save one, had its origin below the Elephant Butte dam, the waters flowing in from the many canyons on either side above the Selden dam between that diverting point and the Elephant Butte project."

"The watchman at the Selden dam was much surprised that he had not been advised from Elephant Butte of the flow of water which came down but the engineers at Elephant Butte knew nothing of it. This flood lasted half an hour."

"There will continue to be seasons of the year when the Rio Grande at El Paso will be as dry as a bone, but there will never be safety in discontinuing the bridges, for water will always come in below the Elephant Butte dam and flow into the bed of the Rio Grande."

OKLAHOMA BANK IS DYNAMITED; NOT ROBBED.
Chickasha, Okla., Dec. 5.—Robbers early this morning at Cement, south of here, dynamited the safe of the Oklahoma State bank, but were frightened off before they obtained anything. The office fixtures were damaged and the windows broken. There were several thousand dollars in the bank. Officers are hunting the cracksmen.

NO SORROW IN THE EDDY HOME

Windows Are Up and No Crepe on Door of Her Home.

Boston, Mass., Dec. 6.—The body of Mrs. Mary Baker G. Eddy, late head of the Christian Science church, will be buried in Mount Auburn cemetery, at Cambridge. This was decided today. Meantime the directors of the church, Archibald McLellan, Stephen A. Chase, Allen Stewart, John V. Dittmore and Adam M. Dickey, have taken full charge of the church management, and the scope of their powers includes the matter of organization, finance and discipline.

At the mansion on Chestnut hill, where the body lies in the upper chamber, there are no outward signs of grief—no crepe on the door and the window shades are up, and the household comes and goes as usual.

FORGOT TO ENUMERATE THE SHERIFF AND THE PRISONERS.
Carelessness of Enumerators of Census Makes Glendive, Mont., and Her 2467 Souls Very Angry.

Glendive, Mont., Dec. 5.—Glendive has a grievance against the census bureau. The Commercial club will appeal for a recount of the population of Glendive, 3467 being considered too low. The census agents, it is claimed, overlooked among others, the sheriff and all prisoners in the county jail.

EARNST WORKERS OF RED CROSS IN SESSION.
Washington, D. C., Dec. 5.—An unprecedented attendance of delegates is expected at the sixth annual meeting of the American Red Cross in Continental Memorial hall here today.

President Taft, who is head of the organization, will preside at the afternoon session, when reports of the war relief, national relief and international relief boards will be received.

Announcement of the completion by New York of its \$500,000 subscription for the \$2,000,000 endowment fund was also made.

HEAVY DAMAGES FROM FIRE IN INDIANA.
Evansville, Ind., Dec. 5.—Fire here today caused damages of \$750,000, principally to the plant of the Fendrick Tobacco company. A tobacco warehouse and several other buildings were destroyed.

Amendments Can Wait.
Except as above, I do not recommend amendment to the interstate commerce law as it stands. I do not now recommend any amendment to the antitrust law.

In other words, it seems to me that the existing legislation with reference to the regulation of corporations and the restraint of their business has reached a point where we can stop for a while and witness the effect of the vigorous execution of the laws on

**WOMAN OFFERS RING
GIVES DIAMOND FOR BULGIN'S WORK
FOR LORD'S SERVICE**

Evangelist Bulgin is getting the people interested in real earnest in his work. Here is one of the letters he received yesterday:

"I praise the Lord that such a man has come to El Paso. I heard your sermon the night you said you had sold your diamond ring to help revival meetings. I have a diamond ring, a seven-eighths karat stone, which is worth \$100, and which I am willing to give you for use in your work. I hope that you can stay here six weeks and work with us. I wish you would get a band and parade the streets to advertise your meetings like 'Gypsy' Smith does. I came here with my husband for his health and we are thankful for what the Lord has done

for us and I want to help in your work. My ring is at your disposal for any purpose you wish to put it to."

The announcement that he had received such a letter was made at the revival last evening at the same time the evangelist put every minister in El Paso to selling Herolds. He told his audience that everybody in the tabernacle ought to have a copy of his expose of Christian Science, and the ministers passed the papers out through the audience and sold them.

The big tabernacle was well filled Monday night and those who went to hear Dr. Bulgin's lecture-sermon on "The Mountain Whites" really had a

Commends Herald's Mexican News

Editor El Paso Herald:

You have certainly handled the Mexican so-called revolution fine, giving news while it was news without resorting to a lot of nonsense and rot.

The people of Del Rio are greatly pleased with the matter that was sent out from here to The Herald, especially in view of the fact that this town has received quite a bit of undesirable notoriety from the fact that it was formerly a rendezvous for revolutionists.

I put this in the past tense because, thanks to Don Manuel Cuesta, Mexican consul, this class has deemed it wise to seek pastures new.

Since coming to Del Rio he has wrought great changes by bringing the Americans and the better class of Mexicans into a more thorough understanding. Yours truly,

Del Rio, Texas, Dec. 1.

D. Cushing, Pres. City Drug Co.
